Audi RS3 Sportback — 400 hp five-cylinder legend, quattro grip and pure desire

Some engines are recognizable by a single rev. The RS3 houses the renowned **2.5 TFSI five-cylinder** with **400 hp** and that inimitable, rattling exhaust note — good for **0-100 in 3.8 seconds**. Coupled with a lightning-fast **S tronic** and **quattro all-wheel drive** that keeps you glued to the asphalt all year round. Wrapped in subtle **Kemora Grey metallic** with RS bumpers, roof spoiler, **19? Audi Sport wheels** and tinted Matrix LED headlights — discreet for those who don't know, dangerous for those who do. First registration 2024, with just **21,730 km**: as good as new.

And yet usable every day: **leather RS sports seats** (heated), the fully digital **Audi virtual cockpit**, **MMI Navigation plus** with smartphone integration, and the **RS sports suspension with Audi drive select** that switches from smooth cruising to razor-sharp circuit mode. The space and convenience of a five-door Sportback, the soul of a true RS.

The turbo five-cylinder is a dying breed — already a future classic today. An RS3 in this condition and with this mileage is not easy to find. Come and experience it at **BOCARS**, before another connoisseur strikes.
